## Are You Willing To *Give Up* Your Parental Rights?

- ➡ If Issue 1 passes, **parents would be STRIPPED of their right to provide consent**, or even be notified, before their child undergoes a life-altering procedure like an abortion or gender-reassignment surgery.
- ➡ Similar laws in other states have paved the way for courts to **eliminate parental consent and notification laws altogether**. This would pave the way to cut parents out of the most important decisions their children make.
- ➡ The liberal special interest groups behind Issue 1 have been leading the crusade against parental rights for decades, and now they have set their sights on Ohio. **Don't let them win. There's too much at stake.**
